White 2

B12

White and it has an important quantity of pastel.

This fine cotton wiping cloth is made primarily from recycled shirts, pants, blouses and heavy knit sheets or other white clothing.

The shirts are cut in two parts according to the size of the piece:

- The small pieces are cut vertically in the middle, the sleeves are opened from the outside and the result is two pieces.
- The large pieces are cut horizontally in the middle, also the sleeves are opened from the inside and we obtain four pieces.

Aprons are cut in the same way as shirts except that more pieces are obtained. After removing the loops, the pants are cut into two parts at the zipper. The two parts are cut in such a way as to present four pieces.

The size of the format is about 40 x 50 cm, these formats are not regular because they are made from recycled textile.

Indeed, the pieces are neither too small nor too big to allow a good catch in hand. However, the cut may vary depending on the garments used.

Note: this quality is not devoid of the tickets.

From the recycling of old clothes

Bulk rag packaged in :

- Large bale (weight between 450 kg and 500 kg) Packed in white polypropylene and strapped with galvanized wire or PET.
- 10 kg bag made of welded and pre-cut PVC that keeps the rags perfectly and durably dry.
- 10kg dispenser box very convenient to use.
- Clean and free of any stain or dirt.
- Controlled by a high-tech metal detector, which ensures the cleanliness of all types of metal bodies that could affect the safety of the user or the surface to be treated.
- Offers a very good resistance to most solvents.
- Irregular looking cloth that does not lint and absorbs water perfectly. It absorbs so much that once applied, no water remains.

This cloth is generally used by mechanical professionals who want a white and economical cloth. Its irregular appearance is more appropriate for mechanical workshops than for cleaning companies for example.

Environmentally friendly: Issue du recyclage du textile.

- Loose.
- Free of synthetic fiber.
- Washable.
